

RESORT INNOVATIONS

THE ARETE INDUSTRIES DIFFERENCE

SITE FURNISHINGS

Arete Industries is a full service design and manufacturing company specializing in site furnishings. Our custom innovations enhance the overall feeling guests have when staying at your resort or hotel; unifying your brand for that everlasting experience.

Portable Bars

Portable bars offer a convenient and flexible solution for providing poolside beverage service to your patrons. Each bar comes standard with interior storage, an interior trash receptacle and ice cooler, casters for easy mobility, speed rails and an umbrella hole.

FEATURES

- Straight or angled side panels
- Spacious serving shelf
- Hinged access doors
- Interior trash receptacle with liner
- Built-in ice cooler
- Speed rails to hold popular drinks, mixes and juices

Towel Return Units

Towel return units are available in many different styles including cabanas, cabinets and towers. Many of these styles are offered as single, double and triple combinations and include several personalization offerings. Customize units by adding options such as brand logos, stylish angled or flat top roof designs or clear panel doors. All towel return units are manufactured for indoor or outdoor use in commercial settings such as pool areas, spas, fitness centers or recreational facilities. Offered in several low-maintenance materials with multiple color choices.

FEATURES

- Commercial grade construction
- Towel return openings with identification labels
- Hinged access doors
- Heavy-duty, roto-molded liners
- Marine-grade hardware
- Most models available in single, double or triple cabinet configurations

Podiums

Concierge, bellman and valet podiums offer a wide array of functionality for resorts and hotels. Each are designed with a variety of useful features including convenient lockable storage, valet key boards, umbrella holes, casters and logo options that help to reinforce your brand. Our podiums are manufactured in 3 standard sizes and are available with either a flat top or angled top design.

FEATURES

- Suitable for indoor or outdoor use
- Lockable rear doors
- Casters for easy mobility
- Interior shelving & storage
- Logo/branding options
- Slant or flat top writing surfaces
- Multiple color and material choices to match existing decor

Pool Storage Boxes

Pool storage boxes can be functional yet elegant at the same time. Built to withstand the wear and tear of commercial settings, each unit is manufactured with stainless steel hardware and pocket screw construction.

FEATURES

- Variety of sizes, styles and materials
- Durable stainless steel hinges
- Optional logo service
- Custom models available

Beverage Stations

Our beverage stations offer numerous customizable features, including spring loaded cup dispensers, lid and straw dispensers, built-in ice coolers, waste receptacles, and water cooler and towel cabinets. Available in a variety of design styles and endless configurations, our beverage stations are a perfect solution for reducing labor costs and enhancing the overall guest experience.

FEATURES

- Designed for indoor or outdoor use
- Spring-loaded cup dispensers
- Lid and straw dispensers
- 28-gallon waste receptacles with removable trash liners included on all models
- Logo personalization available.
- Lockable front or rear access doors on all models

Waste & Recycling Receptacles

Waste and recycling receptacles are available in several different capacities, styles and materials. Available in single, double or triple stream configurations with options that include restrictive openings, identification labels, graphic panels and opening flaps. Personalize units by adding your brands logo, choosing from unique roof styles and coordinating colors and materials with other property amenities.

FEATURES

- Indoor or outdoor use
- Easy-access hinged doors
- Single, double and triple stream configurations
- Heavy-duty, removable roto-molded liners
- Multiple personalization options
- Commercial-grade construction using marine-grade hardware
